Migrant voices: Call for participation

Dear Sir, Dear Madam,

As part of a scientific research project conducted by the Centre for Social and Cultural Psychology of the KU Leuven and at the Free University of Brussels, we would like to ask you a series of questions about yourself and your life experience in Belgium. Your testimony can help us to better understand the challenges faced by people participating in the "Parcours d'intégration".

We would like to emphasize that this research is conducted independently and autonomously by researchers in Brussels and in Leuven, and that it has no connection with your "Centre Regional d'Intégration" (CRI), nor with the Belgian administration more generally. Your opinion is of utmost importance. Thanks to your participation, we will be able to improve the integration programs for future participants.

Your participation is voluntary and your data will be treated confidentially and anonymously. It will therefore not be possible to associate your answers to this questionnaire with your identity. We emphasize that you are not obliged to answer the questions and that you can stop at any time. Obtaining the integration certificate is in no way connected with completing this questionnaire.

If you decide to participate, we invite you to put the completed questionnaire in the envelope that was given to you and to hand it in at the reception desk of your "Centre Regional d'intégration", or to send it via a post office mailbox. You should not put a stamp or write your name and/or surname on the envelope. The letter will therefore remain completely anonymous. Just close it and send it!

We hope that we have succeeded in stimulating your interest and we thank you sincerely for your help.

You can also follow the progress of the research or contact us at any time on the following site: www.migrantvoices.info
